**Subject:** Antitrust Consent Decrees

Please consider the impact of ending Antitrust Consent Decrees on the music industry. If performing rights organizations like ASCAP, BMI and SESAC are allowed to charge variable rates and withhold licenses to requestors it could strangle small operators like us who only hold a few concerts a year and have been able to budget for these amounts fairly predictably. It could significantly complicate our closeout processes and make it difficult to plan for future productions.

Thank you,

Wendi
