

Peter Mucchetti,

12/5/18

I'm very concerned about the potential CVS/Aetna merger. As an Independent Pharmacy owner I have first hand experience to what CVS has done to the healthcare industry through owning multiple segments of the healthcare industry. CVS has figured out how to print money at the expense of the American taxpayer and small business. I'm afraid this merger is an attempt to own all the data so that their highly profitable business model will not be exposed for the fraud that it is.. Please look into the business practices of CVS before allowing this merger.

Thank you,

Eric Lee PharmD

Owner

Lee's Total Health Pharmacy
